Annual Lake Sakakawea State Park Wheelchair Hunt

Park will be closed for the weekend for the event

Wheelchair-bound hunters take to the field at Lake Sakakawea State Park Nov. 13-15 for the park's 14th annual Wheelchair Hunt. The park will be closed for the weekend, including the campgrounds and trail systems. Park staff will be in the office during the weekend to answer any questions.

The hunt, held the second weekend of the deer gun season, is open to people permanently confined to a wheelchair. Due to the nature of the hunt and preparations to set up blinds to meet the individual needs of each hunter, those wishing to participate must contact the park. Limited space is available, call the park for details.

Lake Sakakawea State Park is located just north of Pick City. For additional information, call the park manager, Greg Corcoran, at 701-487-3315
