Re: Land Transfer – Walsh County

Dear Ms. Leer:

Today I received and have enclosed the Quitclaim Deed signed by the Governor for the Development Center in Grafton for the sale of the property to the Grafton Park Board as authorized by the 2011 legislature in HB 1337. Please have the appropriate person sign as Grantee on behalf of the agency on page 2. You can then complete the closing with the Park Board.

If you have any questions, please me at 701-328-4726.

Sincerely,

Carolyn A. Kvislen
Paralegal
Natural Resources Division

Enclosure

e:\kvislen\dhs\walsh cty\2011\leer.ltr.june.2011.docx

QUITCLAIM DEED

THIS INDENTURE is made this 17 day of June, 2011, between the State of North Dakota db/a the North Dakota Department of Human Services ("State"), a State agency, Bismarck, North Dakota, Grantor, and the Park Board of the City of Grafton, a North Dakota municipal corporation, ("Grantee"), whose address is 5 E 4th St. Grafton, ND 58237-1108.

State, for good and valuable consideration, receipt of which is hereby acknowledged, does hereby QUITCLAIM to Grantee, and its successors and assigns all of that real property, which is part of the grounds of the State Developmental Center at Westwood Park, Grafton, located in Walsh County, North Dakota, described as follows:

A parcel of land approximately 77.05 acres, more or less, located within the W½W½ of the NW¼ of section 13, township 157 north, range 53 west.

Reserving and excepting, however, to the State of North Dakota, fifty (50%) percent of all oil, natural gas, coal, and other minerals which may be found on or underlying said lands, as provided by N.D.C.C. § 38-09-01, and further reserving and excepting title to all archaeological or paleontological materials, whether such materials are found upon or below the surface of said lands, as provided by N.D.C.C. § 55-03-06.

State for itself and assigns, does covenant with the Grantee that the premises are subject to reservations, restrictions, easements, rights of way, and other encumbrances of record, if any.

The legal description was obtained from a previously recorded instrument.

This deed is executed pursuant to N.D.C.C. § 54-01-05.1 by the Governor and attested to by the Secretary of State.

State of North Dakota

Jack Dalrymple
Jack Dalrymple
Governor

ATTEST:

State of North Dakota }
County of Burleigh }

The foregoing instrument was acknowledged before me this 17th day of June, 2011, by Jack Dalrymple, Governor of the State of North Dakota.

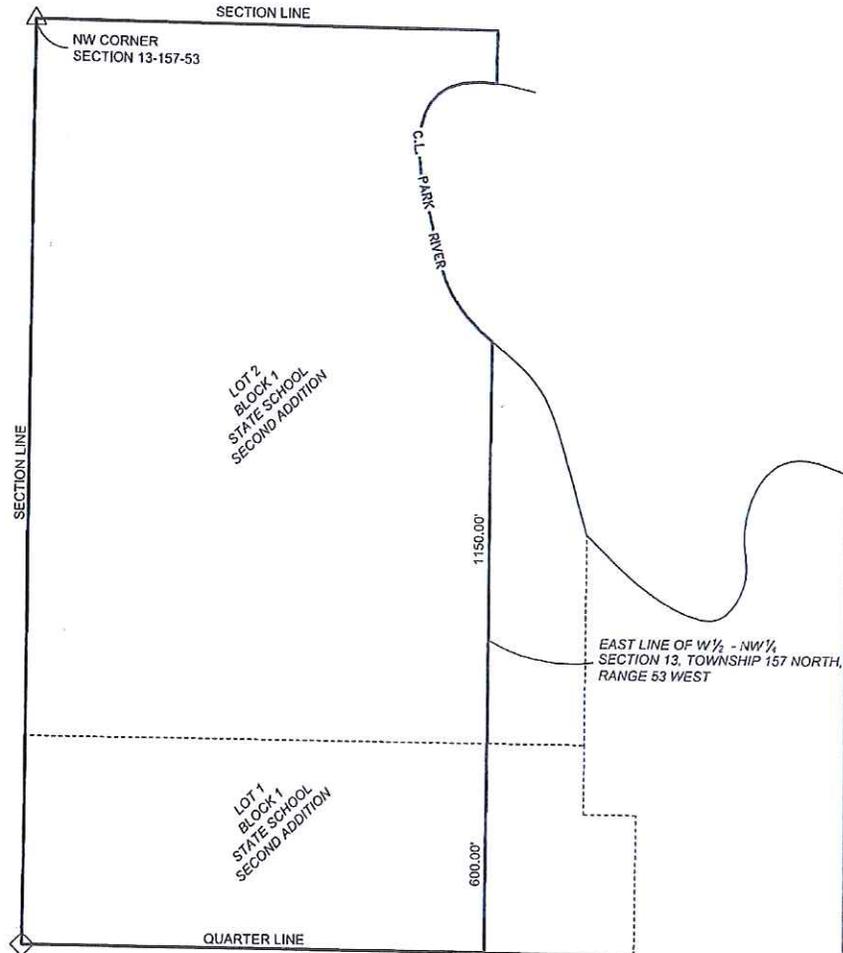

Alvin A. Jaeger
Alvin A. Jaeger
Secretary of State

I certify that the requirement for a report or statement of full consideration paid does not apply because this deed is one of the transactions exempted by N.D.C.C. § 11-18-02.2(7)(e).

Dated this 20 day of July, 2011.

Grafton Parks & Recreation

To: Kevin Stankiewicz
ND Parks & Recreation Department
Recreation and Trails Grant Coordinator
Scenic Byway Program Coordinator

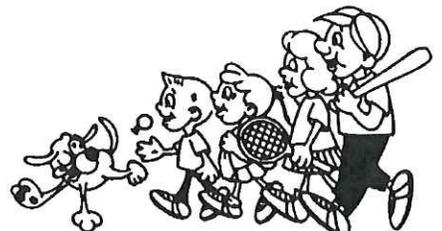

Dear Mr. Stankiewicz,

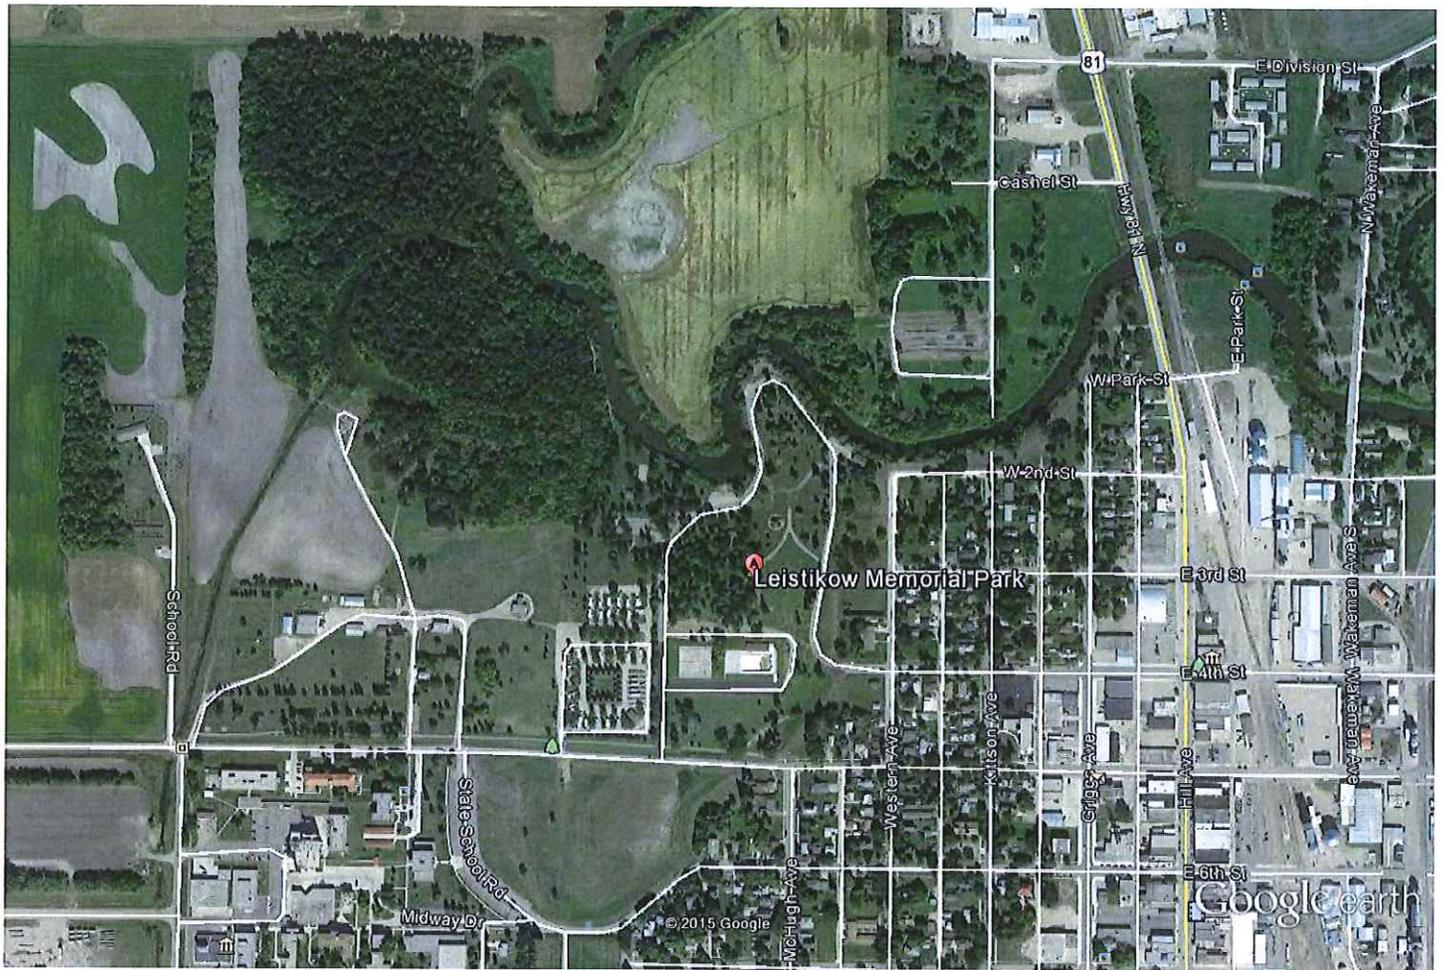

This letter is written to confirm that the property in the proposed RTP Grant Application submitted by Grafton Parks and Recreation is open for public use.

The property in the proposed project was purchased by Grafton Parks and Recreation in 2011 from the ND Department of Human Services. We have opened this property up to the public in 2012 with a newly constructed Dog Park and a Campground Expansion that includes a Welcome Center along with our first phase of our non-motorized trail system. The trails have gone from minimal use to daily use from all ages of people in our community. As we continue to encourage outdoor activity we are excited for this opportunity to open access to this property for our community and surrounding areas.

Sincerely,

Bill Dahl (Director)
Grafton Parks and Recreation
5 East 4th Street / PO Box 122
Grafton, ND 58237

Featuring STIHL M-Tronic™ – an engine management control system that intelligently manages the operating performance of the engine – the MS 441 C-M MAGNUM® chainsaw is ideal for professional jobs. The innovative system eliminates the low and high-speed carburetor adjustment screws and compensates for dirty air filters, changes in elevation and fuel quality through an electronic monitoring of the engine, digitally controlling the fuel/air mixture. Designed with the professional in mind, the MS 441 C-M MAGNUM® features a side-access chain tensioner and an advanced anti-vibration system that helps reduce user fatigue. A translucent fuel tank makes checking levels easy. A decompression valve and pre-separation air filtration offer an easier start and longer run times.

Standard Features

Common Features for Chain Saws

[View](#) the features common to many STIHL chain saws.

Specifications

DISPLACEMENT	70.7 cc (4.3 cu. in.)
ENGINE POWER	4.2 kW (5.6 bhp)
POWERHEAD WEIGHT	6.6 kg (14.6 lbs.)
GUIDE BAR LENGTHS* (Recommended ranges)	40 to 80 cm (16" to 32")
FUEL CAPACITY	725 cc (24.5 oz.)
CHAIN OIL CAPACITY	360 cc (12.2 oz.)
OILOMATIC® CHAIN	3/8" RS3

STIHL recommends #3624 (33 RS3 84) OILOMATIC® saw chain and 25" 3003 000 4030 STIHL ROLLOMATIC® E Super guide bar combination. The actual listed guide bar length can vary from the effective cutting length depending upon which powerhead it is installed.

Important Information

WARNING! The occurrence called "kickback" can cause serious or fatal injury. Always read the instruction manual carefully before using your saw. STIHL uses a green and yellow color-coding system to help you select a powerhead, bar and chain combination that complies with the kickback requirements of ANSI Standard B175.1 (gasoline-powered saws) and §30 of UL 1662/ ANSI Standard B175.1 (electric chain saws). Ask your STIHL dealer about safe operating procedures and the advantages of the STIHL Quickstop® chain brake, STIHL Quickstop® Plus additional chain braking feature (Q), STIHL reduced kickback bars and STIHL low-kickback saw chains.

Woodlink Traditional Bluebird House

Do your part to combat disappearing bluebird habitats by joining a bluebird trail with the Woodlink Traditional Bluebird House. Residential and industrial development have reduced natural habitats for bluebirds and other cavity dwelling birds; however, a series of bluebird boxes placed along a prescribed route helps increase bluebird populations. This house features all the right details to make it the perfect spot for bluebird nests: a sloping roof and a drainage gap keep the house dry, ventilation slots regulate the temperature inside for maximum comfort for fledglings, a 0.75" thick predator guard protects bluebirds from intruders, and there is no perch on the house to attract wrens and sparrows. For convenient observation and end of season clean outs, open the latched front door. If you help preserve bluebird habitats, their beautiful and musical presence will be your reward. Use the included screws to mount this house 5' high on a post in an open area. Made in the USA.

SNOW ROLLER

The Tidd Tech Snow Roller is an extremely tough implement designed to compliment our Trail Tenderizer or other finish grooming tools. Whether you are interested in packing early season snow, handling the "big dumps" or just trying to conserve every inch of your precious snow base, this is the roller for you. Constructed from very stiff and durable HDPE double wall culvert material, the drum will roll over rocks and stumps without damage and shed sticky snow. The drawbar is built just like our proven Trail Tenderizers, with a shear pin hitch to protect both the equipment and operator. And to top it

all off, we have added an innovative basket system that will hold two 30 gallon plastic trash cans on the drawbar - great for hauling snow to the bare spots, shovels, trail or race signs, and even skis and poles.

What will a roller do for you? We believe that a roller is a useful tool when used in conjunction with a grading and leveling implement like the Trail Tenderizer. There are three primary reasons to supplement your grooming with a roller:

1. A roller can be used during the early season to pack the snow base before it is possible to use a finish tool like the Trail Tenderizer.
2. A roller can be used to pre-pack deep snowfalls - a condition that would normally require multiple passes "pre-packing" with just the snowmobile before finish grooming.
3. A roller will pack all the available snow into the snow base without displacing any to the side of the trail.
4. A deep ribbed roller like ours will leave a pattern that catches blowing and drifting snow during and after a storm. It is possible to actually gain base beyond what has fallen from the sky by continually rolling during periods of blowing and drifting snow.

What can't a roller do? A roller cannot level and grade like the Trail Tenderizer or other finish tools. One of the advantages of a roller is that it does not displace snow (see #3 above). High and low points will remain after rolling and should eventually be graded with an implement like the Trail Tenderizer.

*“Celebrating over 50 years of service
to the Grafton community”*

January 21, 2015

To whom it may concern:

The Grafton Area Chamber of Commerce is excited with the plans being proposed by Grafton Parks and Recreation (GPR) to maintain and enhance its current trail system. GPR continues to improve the quality of life in the Grafton and Walsh County areas by offering recreational opportunities for people of all ages.

The two-mile trail system, cut out of the woods adjacent to the Park River in Leistikow Park, benefits the community throughout the year. In the winter the trails are used not only to walk but for cross country skiing and snowshoeing. During the rest of the year the trails are used for running, biking and walking. The trails are an exceptional addition to the Grafton area, but of course need to be maintained to ensure safety, the integrity and quality of the trails.

It is a Chamber focus to promote Grafton not only as a destination city, but a place to call home. A well maintained and enhanced trail system reflects positively on the community as a whole. The progress GPR has made with its trail system and its property in and around Leistikow Park helps promote Grafton as a regional center. The park district also places an emphasis on family activities. The trails allow family members of all ages to participate in activities that promote wellness and overall health. It would be the request of the Grafton Chamber that GPR is considered for this and future grants as it is truly making Grafton and the surrounding area a better place to live and work.

Sincerely,

W. Todd Morgan

RE: Grafton Parks and Recreation - RTP Grant Application

To whom it may concern:

This letter is written in support of the proposed recreation trail grant application submitted by the Grafton Parks and Recreation Department for equipment to maintain Leistikow Park trails. Leistikow Park is the jewel of the parks in the City of Grafton. Leistikow Park is utilized by all citizens and tourists from age 1-99, and the recently added nature trails have been a great amenity to the Park. The trails allow all of residents to enjoy the beauty that Mother Nature has so graciously provided us, as well as provide outdoor activities to our citizens. This grant will allow Grafton Parks and Recreation to continue to nurture, grow, and maintain this wonderful amenity that we have. This is why the City of Grafton is in full support of this grant application.

Your consideration of the grant application request from the Grafton Parks and Recreation is appreciated.

Sincerely,

Nick Ziegelmann
Grafton City Administrator

To Whom It May Concern:

I am writing to express my educational as well as community interest in the Trail Grant that is run through the state of ND. The trail system is a huge asset in promoting our Grafton Parks and Recreation. Funds to help maintain and enhance our trail system will continue to help our Parks and Recreation thrive with opportunities within our ND community. Leistikow Park is a great asset for our Physical Education classes for the Grafton school system. As Physical Education teachers, we are very fortunate to be able to encourage and promote first hand of what our community park has to offer and be able to take advantage of it within our PE class times and other school session times. Our Century Elementary classes do annual sledding trips to the park. High School and Elementary PE classes have utilized the Frisbee Golf, and PE classes have used the trail systems for various activities. Leistikow Park allows us not only to enhance our school districts' Physical Education curriculum, but promotes wellness to the whole community of Grafton. As a Physical Education teacher of eight years and an educator for 17 years, I feel very fortunate to have had the various Parks and Recreation opportunities to promote within our school system. I recommend Grafton Parks and Recreation as a recipient of the Trails Grant, I know without a doubt our community will be a grateful recipient and continue to put it to great use.

Respectfully submitted,

Laurie Sieben
K-4 Physical Education Teacher
Grafton Public Schools

To Whom It May Concern:

I am writing this letter in support of Grafton Parks and Recreation Department's proposal for this grant to fund trail development in Grafton, North Dakota.

As community members of Grafton we have been able to utilize the trails in Grafton's park year round and in a variety of ways. During spring, summer and fall we hike, bike, run, and nature watch on the trails. While on the trails we have seen fox, deer, owls, and a variety of birds. This is a quiet and peaceful area in which we are able to relax while also getting exercise. This winter we have been very fortunate that Grafton Parks and Recreation has equipment for grooming the trails for cross country skiing since the surrounding area state parks have not had enough snow for grooming. Along with cross country skiing, we have been able to use the winter trails for snow shoeing and skijoring with our dogs. Many of the winter days in this area of North Dakota are cold and windy. The wooded trails offer a protected area in which outdoor activities can be enjoyed most days of the winter.

The importance of these trails to our community is indisputable. The trails allow for community members to have free access to lifetime recreation, fitness, and an opportunity to try new forms of activity which they may otherwise never experience. As an example, I was introduced to cross country skiing while on Grafton Park and Recreation's trails and this is now a great passion and favorite winter activity of mine. In addition, the trails allow a safe environment for community members to enjoy the outdoors and exercise without interference of motorized vehicles. This allows us the opportunity to connect with nature daily and exercise without fear of injury from distracted and impaired drivers.

Sincerely,

A handwritten signature in black ink, appearing to read "Samantha and Derek Meyer". The signature is fluid and cursive, with the first name "Samantha" being more prominent and larger than the second name "Derek".

Grafton, ND Residents

January 23, 2015

To whom it may concern,

My family of 6 recently enjoyed a time of recreation in the trails within Leistikow Park of Grafton Parks and Recreation. The trails are very accessible, easy to find and easy to follow with clear paths. While on the trails, there are several options which helps keep the experience interesting. Our family ranges in age from 9 to 44 years old. We all agreed that each of us was "the perfect age" to enjoy the Nordic skiing in our park. We are looking forward to another outing together as a family.

Any investment to further enhance these trails is worth the money because of a specific aspect of our experience: the staff. No matter what is done with the trails of Leistikow Park, the staff of Grafton Parks and Recreation makes the very best of what they have to work with. We were greeted warmly and encouraged by staff people to enjoy our time on the trails and to be sure and come back again. We definitely will.

Janice Kern
Grafton, ND

Example of weeds along opening in trail

Example of debris to be removed from years of trash dumping

Examples of extensive wood piles and deadfalls along trail

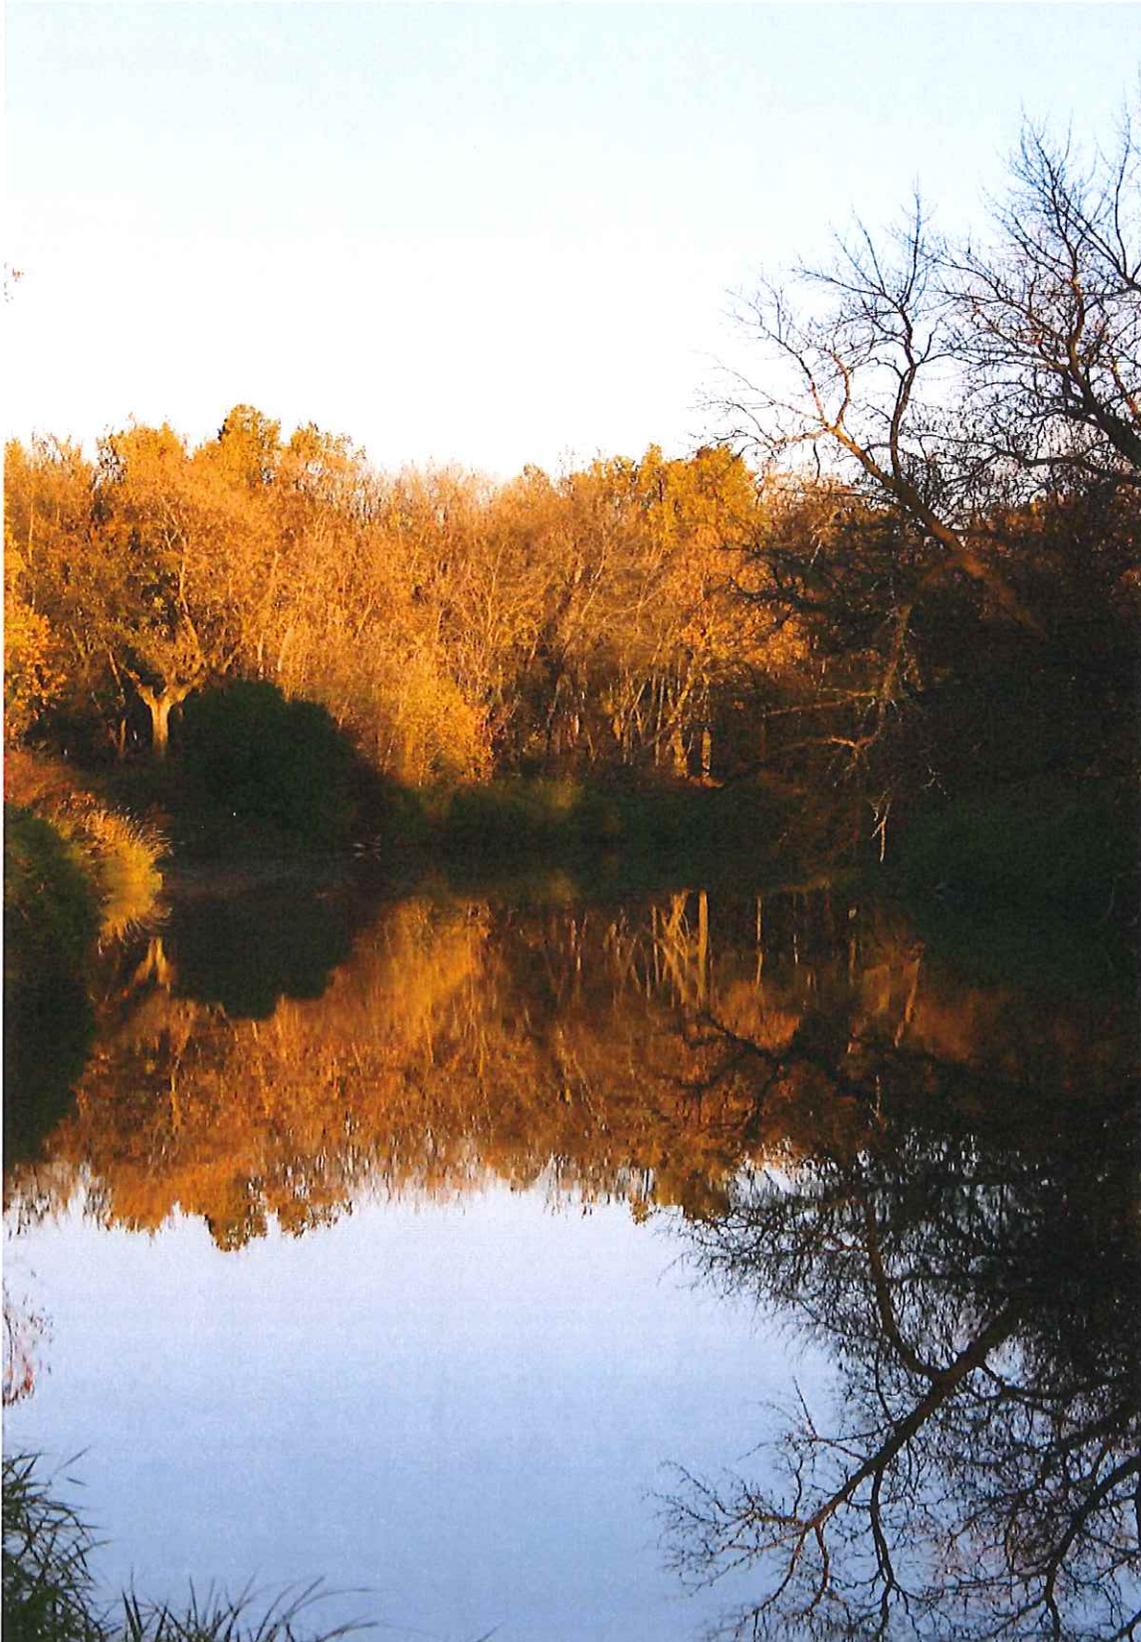

Our trail system is used year-round for many activities like hiking...

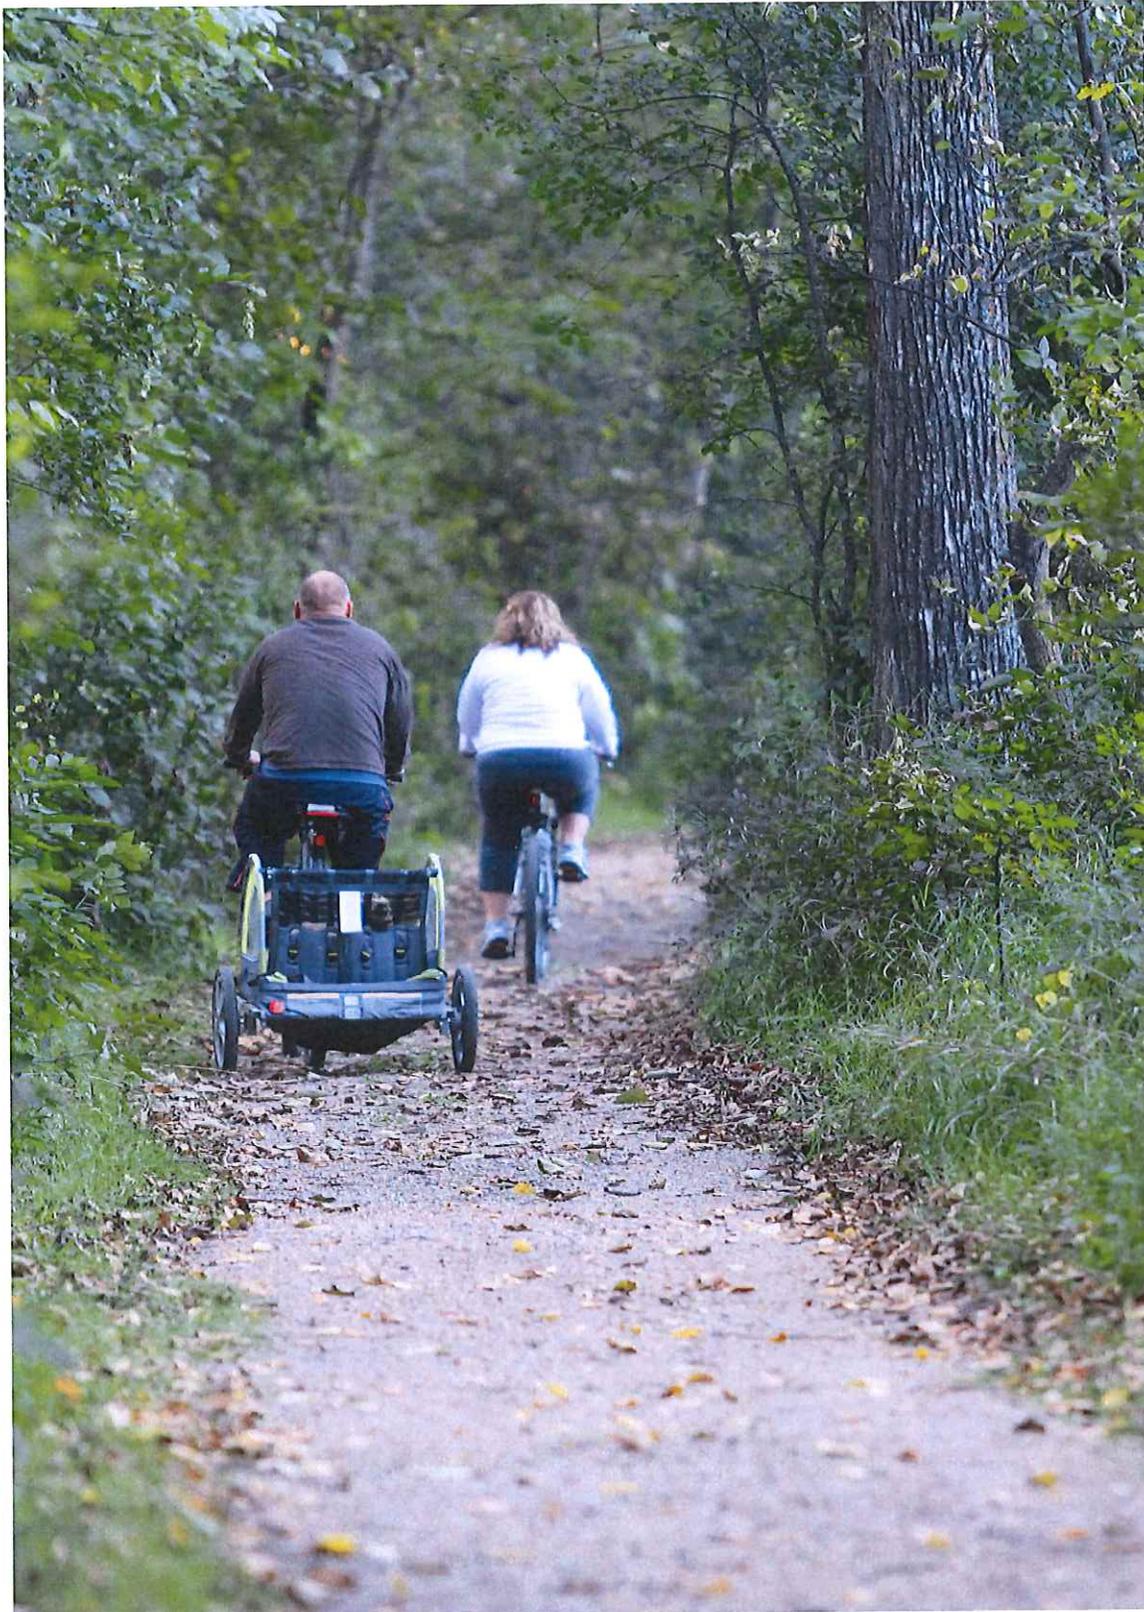

Wildlife/bird watching

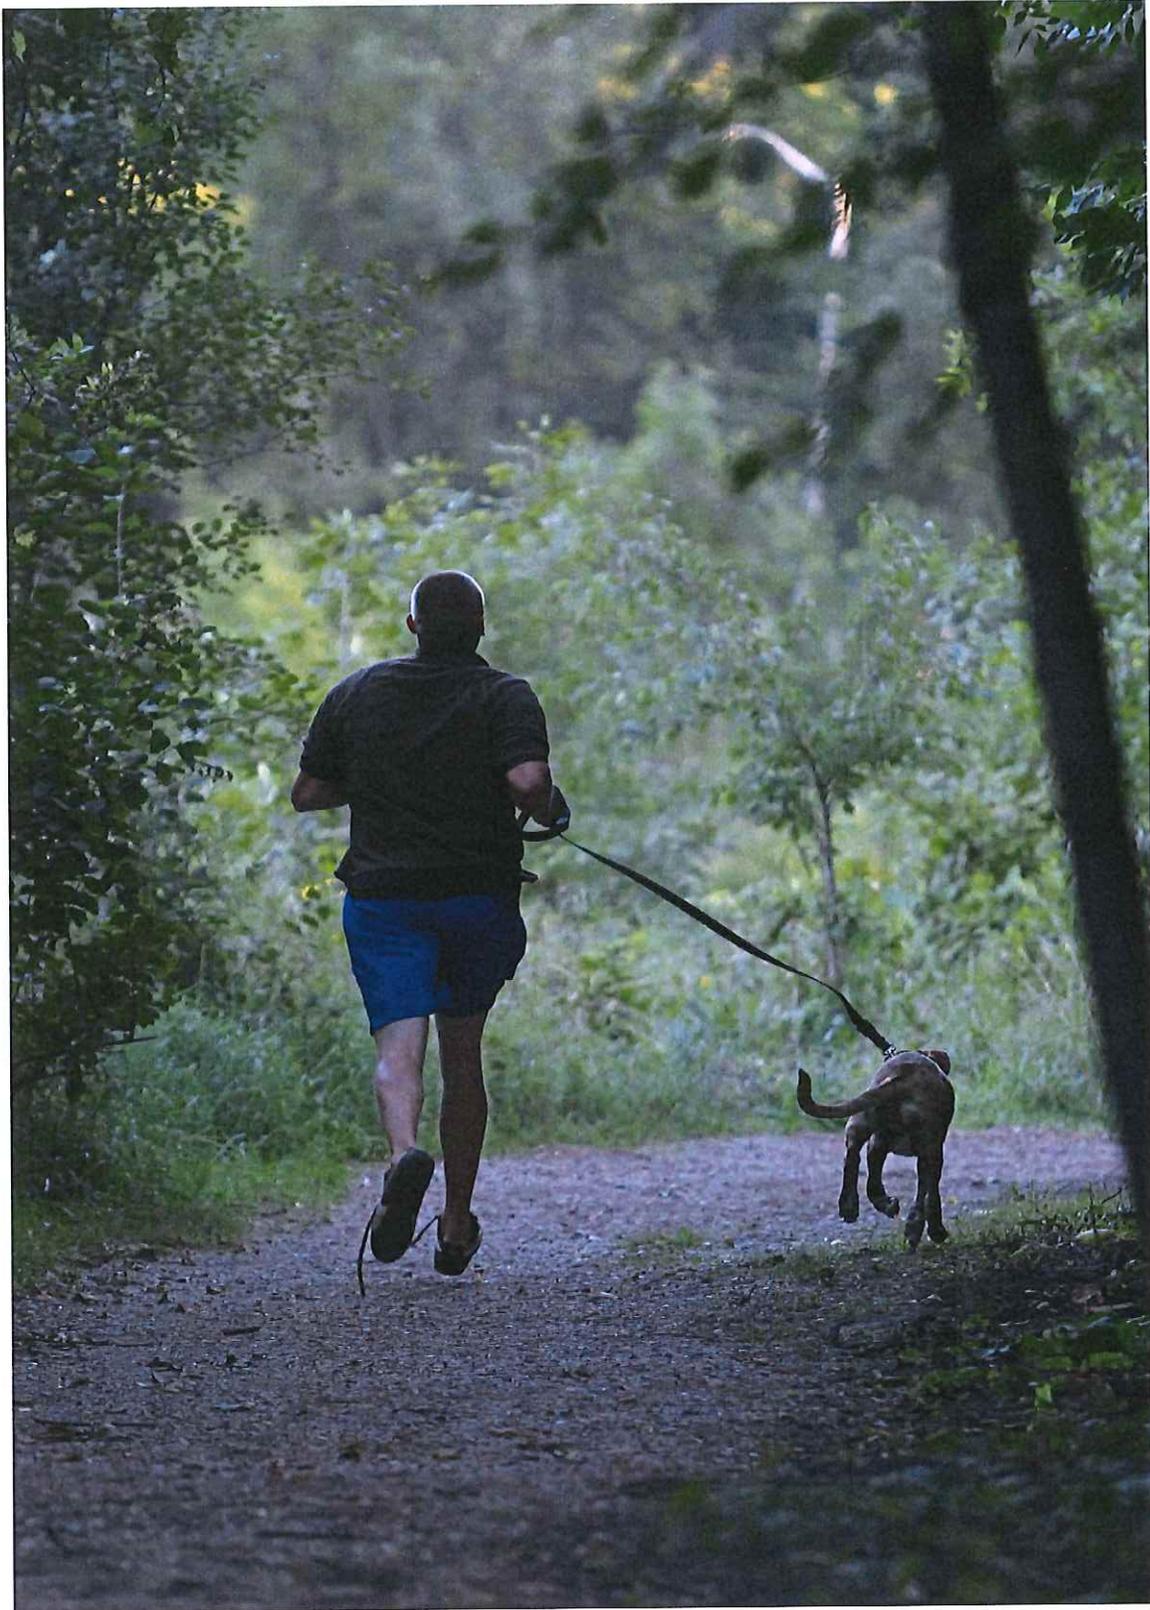

Enjoying the scenery (View of the Park River along our trail.)

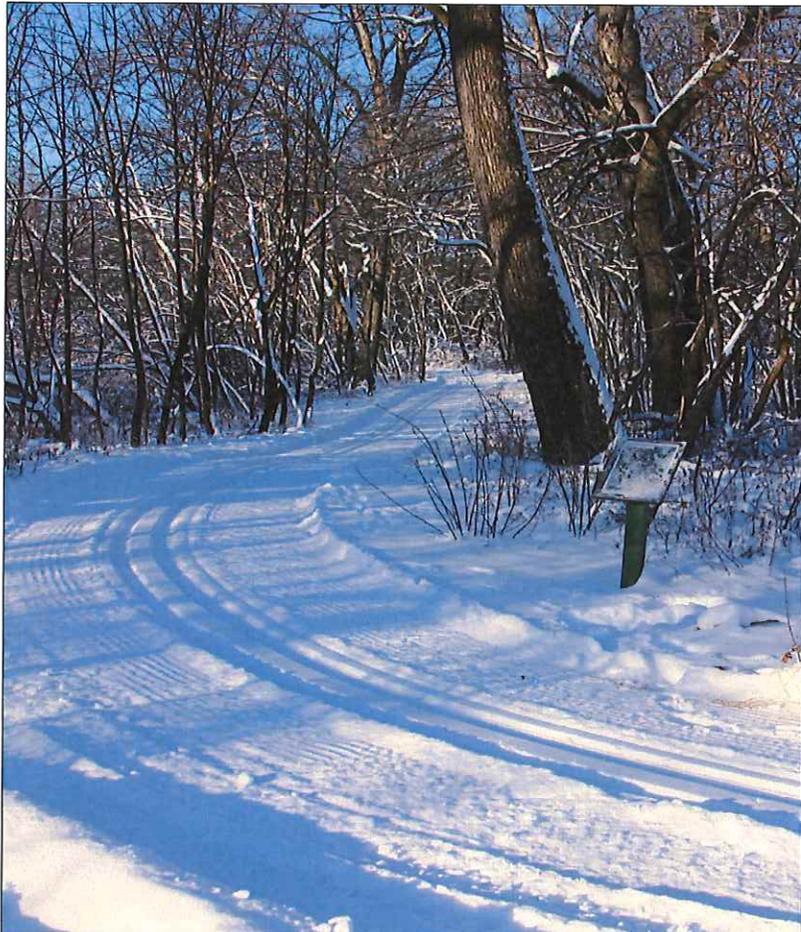

Biking

Running

And Cross country skiing

These are just some of the activities our trail users enjoy since our original RTP grant award in 2012.
