DONATED LABOR

The hourly rate of a person donating services will be valued at North Dakota Job Service's General Laborer Rate in that project area unless the person is professionally skilled in the work being performed (i.e. mason doing work on a retaining wall). When this is the case, the hourly rate normally paid for performing that service may be charged so long as the rate can be verified from the employer and documentation is attached to this form. The rates for labor cannot include payroll additives or overhead costs.
